

RACO IS A DIVISION OF HUBBELL INCORPORATED (DELAWARE)  
PO BOX 4002 (3902 WEST SAMPLE ST.) SOUTH BEND, IN 46634 PHONE 574-234-7151

August 17, 2009

To whom it may concern:

Raco/ Bell products are compatible for use in LEED buildings and structures. The primary content for a majority of our products is steel. For all flat steel products fabricated in the United States, the recycled content is listed at 20% maximum.

We use low carbon steel (1006) where the carbon content can range from .03 to .06. Our products do not release any carbon into the atmosphere.

If you have any questions, feel free to contact the product engineering office.

Thank you.

*M. Ayton*

Sincerely,

Mahran Husain  
Director of Product Engineering
